

About us...

Lincolnshire Co-op is a long-standing, community-focused organisation proud to serve the people of Lincolnshire and surrounding counties. Our Support Centre, **based in Lincoln, is the operational heart of our business. It's home to a range of specialist teams who work behind the scenes to support our front-line colleagues and ensure we deliver exceptional service across all our trading areas.**

Essential Information – what you need to know

Job purpose:

- Leading the end-to-end delivery of IT solutions by overseeing the key stakeholders responsible for delivery lifecycle activities, ensuring that solutions are efficiently designed, developed, tested and deployed in line with business objectives and IT strategy.
- Driving IT-enabled change initiatives by fostering cross-team collaboration, managing risks and dependencies, and ensuring high-quality outcomes that support business transformation and operational excellence.

You'll report to:

- Head of IT and Digital

Your relationships:

- Colleagues within the IT and Digital team.
- Colleagues from across the Society which includes our Trading Areas, Community, Membership, Health, Safety & Security, etc.
- Vendors / Third-Party Service Providers: Manage delivery contracts, escalations, and service level agreements.
- Customers / End Users: Gather feedback and ensure solutions meet user needs and expectations.
- Auditors/ Regulators / Compliance Bodies: Ensure delivered solutions comply with relevant policies and standards.
- Industry Forums: Foster a growing network that enables a constant review of latest thought leadership within your area of expertise

Key role responsibilities:

- A full UK driving licence and access to a vehicle for business use.

Your hours:

- 39 hours per week (FTE).
- Typical working hours will be Monday – Friday, 8.30am – 5.00pm.

What you'll bring to us:

- Proven experience managing end-to-end delivery of complex IT solutions and programmes across various sectors at a senior level.
- Strong understanding of software development lifecycle (SDLC) and delivery methodologies (Agile, Waterfall, DevOps).
- Experience leading and motivating cross-functional teams.
- An ability to engage collaboration, resolve conflicts, and develop high-performing teams.
- Strong skills in engaging senior leaders, business stakeholders, and technical teams.
- An ability to align delivery with business strategy and translate complex problems into actionable plans.
- Skilled at-risk identification, mitigation, and managing dependencies across multiple projects.
- Proficiency in portfolio, programme, and project management principles.
- Experience managing budgets, forecasting costs, and delivering solutions within financial constraints.
- Understanding of testing strategies, environment management, and quality control processes.
- Excellent communication skills, communicating information clearly, concisely and persuasively to stakeholders at all levels of the organisation.
- An ability to lead organisational change initiatives and drive adoption of new solutions.
- Demonstrated ability to make informed decisions, take ownership, and drive results.
- Strong vendor/supplier management experience.
- Comfortable working in fast-paced, dynamic environments with shifting priorities

Providing and supporting valued services

Helping to grow the local economy

Together we THRIVE...

- Trustworthy – we do what we say we'll do and trust others to deliver to the best of their ability
- Helpful - we support and challenge each other collaboratively, no matter the role or level.
- Respectful - we listen to other views and opinions with consideration and celebrate differences.
- Inspiring - we role model what good looks like and lead by example to be better.
- Valued - we recognise achievements and appreciate everyone's contributions.
- Empowered - we listen and encourage each other to take opportunities.

Your Approach – how you will contribute to *your team and the Society's ongoing success in this role.*

I will be trustworthy by:

- Ensuring all IT solutions adhere to agreed architectural principles consistently.
- Delivering projects on time, within scope, budget, and quality standards.
- Reporting progress, risks, and outcomes transparently to leadership.
- Ensuring compliance with regulatory, security, and quality standards across all deliveries.

I will be helpful by:

- Collaborating with stakeholders to align solutions with strategic business objectives.
- Providing support and guidance to delivery managers and technical leads.
- Facilitating communication between business, technology and third-party partners.
- Supporting change management for effective solution adoption.

I will be respectful by:

- Valuing contributions from diverse delivery teams and external delivery partners.
- Listening to stakeholder needs and balancing them with delivery realities.
- Recognising individual and team achievements throughout the delivery process.
- Respecting different working styles while fostering a united delivery culture.

I will inspire others by:

- Promoting a high-performance, collaborative culture within delivery teams.
- Encouraging continuous improvement in processes, tools, and delivery capabilities.
- Championing complex IT solutions that drive business transformation and innovation.
- Motivating teams to achieve excellence in delivery and stakeholder satisfaction.

I will value people by:

- Optimising resource planning and capacity management for delivery efficiency.
- Building trusted relationships with vendors to ensure quality and commercial value.
- Ensuring delivery governance, standards, and best practices are consistently applied.
- Providing visibility of delivery success through clear, consistent reporting mechanisms.

I will empower others by:

- Identifying and mitigating risks and dependencies across multiple delivery streams.
- Leading the end-to-end delivery of complex solutions across projects.
- Overseeing strategic coordination of a cross functional team.
- Driving decision-making that enables rapid, effective, and aligned solution delivery.

Your behaviours

- Adhering to Principles and Values – responding suitably to values-led decisions
- Presenting and Communicating Information – translating information appropriately
- Relating and Networking – sharing knowledge to develop and learn from others
- Working with People – building a strong and adaptable team

Your Behaviours – *how you will contribute to your team and the Society's ongoing success in this role.*

I will adhere to the principles and values of the Society by:

- Being honest, transparent and consistent in all actions and communications.
- Treating others with dignity and respect, valuing their diversity and different perspectives.
- Listening actively and consider the opinions of others.
- Taking accountability for my actions and decisions.
- Fostering a spirit of teamwork, co-operation and positive relationships.

I will present and communicate information clearly by:

- Tailoring my communication to the level of understanding and background of the audience.
- Paying close attention to others when they speak.
- Providing examples to illustrate complex concepts to make my message more relatable.
- Encouraging feedback and questions from colleagues to clarify understanding.

I will build a network of customers and colleagues by:

- Offering value to my network by sharing relevant insights, information, or resources.
- Fostering genuine relationships by demonstrating authenticity and integrity in my interactions.

I will work collaboratively with my colleagues by:

- Demonstrating an interest in and understanding of others.
- Recognising and rewarding the contribution of others.
- Listening and consulting with others and communicating appropriately.
- Supporting and caring for colleagues.
- Developing and openly communicating self-insight such as an awareness of own strengths and weaknesses.
